Women's Futsal Club (Team Alle Women) Donates 45 Neck Warmers to Dadeurim Multi- Culture Center

The Women's Futsal Club (Team Alle Women) practiced warm sharing for the local community. Last February, donor Team Alle Women director Seo Yong-eun donated 45 neck warmers to the Dadeurim Multi-Culture Center, delivering warm gifts to children from multicultural families. Through this donation, multicultural children registered at the center were able to spend a warmer winter. A Dadeurim Multi-Culture Center official said, "Thank you for supporting the items needed by the children. Warm interest and sharing will be a great help to the children." The donor said, "It's a small token of sincerity, but I hope it helps the children spend a warm winter," and that they will continue activities with the local community in the future.

Dadream Multi-Culture Complex Family-Friendly Program 'Strawberry Farm Experience' Support

To celebrate the winter vacation, the Dadream Multi-Culture Complex held a 'Strawberry Experience Event' where participants could directly harvest and taste fresh strawberries. The Dadream Multi-Culture Complex stated that it will support family bonding through various programs and provide opportunities for mutual integration among local residents through events for multicultural families, both domestic and foreign. The strawberry experience event held at the strawberry farm last February allowed domestic and foreign families to not only pick and taste strawberries directly, but also enjoy various strawberry-themed experience programs. The experience programs included strawberry picking, strawberry jam making, and strawberry pizza making, which were very popular among the participants. In particular, children had a great time playing in nature and enjoying the fun of picking strawberries with their own hands. A parent from a participating multicultural family expressed satisfaction, saying, "Picking strawberries with my children directly was more fun than buying them from the supermarket. It was great to be able to taste fresh strawberries, and the children enjoyed it very much."

Operation of Multicultural Awareness Improvement Class 'Happiness Danuri Class'

The multicultural awareness improvement class 'Happiness Danuri Class' will be held for elementary, middle, and high schools in Yeongdeungpo-gu, with applications accepted from April and classes starting in June. Unlike last year, which focused on physical activities for mutual exchange between domestic and foreign youth, this year's program will focus on 'multicultural' play education. It is hoped that the 'Happiness Danuri Class' will provide an opportunity for many domestic and foreign elementary, middle, and high school students to understand each other's differences and the diversity of cultures.
